

Rules for the allocation
of the Cross Zonal Intraday Capacity
at the border of Bidding Zones of
Croatian Transmission System Operator Ltd. (HOPS)
and MAVIR ZRt (MAVIR)

January, 2018.

CONTENTS

Section 0 Terms and definitions

Section 1 Introduction

- 1.1. General context
- 1.2. Allocation procedure
- 1.3. General aspects of Intraday Capacity Allocation Rules

Section 2 General provisions

- 2.1. Available Intraday Capacity
- 2.2. Publication of relevant information on HOPS Auction System
- 2.3. Basis on which Intraday ATC is offered
- 2.4. Firmness of Allocated Intraday Capacities
- 2.5. Secondary market
- 2.6. Payments

Section 3 Participation requirements

- 3.1. Registration requirements
- 3.2. Notification of changes

Section 4 Exclusion of the User

Section 5 Auction System

- 5.1. General Conditions

Section 6 Intraday allocation procedure

- 6.1. Determination and publication of Intraday ATC
- 6.2. Allocation of Intraday ATC
- 6.3. Notification of the allocation results

Section 7 Use of Allocated Intraday Capacity

- 7.1. Nomination of Allocated Intraday Capacities
- 7.2. Intraday procedure deadlines

Section 8 Cancellation of intraday procedure

Section 9 Curtailment of Allocated Capacities

Section 10 Miscellaneous

- Article 10.1 Limitation of liability
- Article 10.2 Force Majeure
- Article 10.3 Severability
- Article 10.4 Confidentiality
- Article 10.5 Amendments and changes
- Article 10.6 Applicable law and disputes
- Article 10.7 Notices
- Article 10.8 List of Annexes

Section 0.
Terms and definitions

In *Intraday Capacity Allocation Rules* (including any annexes and forms) the terms defined in this section (where appropriate in plural) shall, for all purposes of *Intraday Capacity Allocation Rules* have the meanings specified in this section (unless the context requires otherwise).

Allocated Capacity - *Capacity* allocated in the yearly, monthly and daily allocation procedures.

Allocated Intraday Capacity - *Capacity* obtained as a result of allocation process provided by the *Transmission Capacity Allocator* in the intraday allocation procedure as specified in section 6 of the *Intraday Capacity Allocation Rules*.

Auction System – An electronic web-based application with restricted access operated by the *Transmission Capacity Allocator* available at <https://www.hops.hr/wps/portal>. Intraday allocation provided by the *Transmission Capacity Allocator* is carried out through the *Auction System*.

Available Intraday Transfer Capacity (hereinafter referred to as “**Intraday ATC**”) - The part of Net Transfer Capacity (NTC) that remains available for the intraday allocation after daily allocation procedure and after each phase of the intraday allocation procedure.

Bidding Zone – means the largest geographical area within which market participants are able to exchange energy without allocation of *Capacity*.

Capacity - Cross-zonal transmission capacity in MW.

Capacity Agreement Identification (hereinafter referred to as “**CAI**”) – An identification that uniquely identifies *Capacity Right*.

Capacity Holder - The legal entity (*User*) which has obtained intraday *Capacity* during intraday allocation process.

Capacity Right (hereinafter referred to as “**CR**”) - right (of the *User*) to use *Allocated Capacity* for electricity transfers expressed in MW.

Cross-border Transaction - The exchange of electrical energy between control areas operated by *HOPS* and *MAVIRMAVIR*.

Curtailement of Allocated Capacities - The reduction of *Capacity* between *Bidding Zones* of *HOPS* and *MAVIR* in *Emergency Situations* or situations caused by *Force Majeure* where *HOPS* and *MAVIR* must act in an expeditious manner.

Cut off time – deadline after which mismatched capacity becomes subject to “lower value principle”.

Daily Auction – Auction performed by JAO in accordance with Rules for Daily explicit Capacity Allocation on Bidding Zone borders of the Core CCR.

EIC-Code – Energy identification code - a unique identification of the market participants and other entities active within the Energy Internal European Market (see <http://www.eiccodes.eu>)

Emergency Situation – conditions and/or events and/or circumstances which in the professional assessment of *HOPS* and/or *MAVIR* put under risk the security of supply, provision or transmission of electricity or the technical safety of a given national transmission system or its significant part.

EU Regulation – Regulation (EC) No 714/2009 of the European Parliament and of the Council of 13 July 2009 on conditions for access to the network for cross-border exchanges in electricity concerning common rules for internal market in electricity.

First come - First serve method – the allocation method whereby the *Requests of Users*, in the limit of *Intraday ATC*, are served exclusively according to the time of their reception and without applying any other criteria.

Force Majeure – any unforeseeable or unusual event or situation beyond the reasonable control of a *User* and/or the relevant *TSOs*, and not due to a fault of the *User* and/or the relevant *TSOs*, which cannot be avoided or overcome with reasonable foresight and diligence, which cannot be solved by measures which are from a technical, financial or economic point of view reasonably possible for the *User* and/or the relevant *TSOs*, which has actually happened and is objectively verifiable, and which makes it impossible for the *User* and/or the relevant *TSOs* to fulfil, temporarily or permanently, its obligations.

HOPS (Croatian Transmission System Operator Ltd.) - company having its registered office at Kupaska 4, 10000 Zagreb, Croatia and registered with the court register of Commercial Court in Zagreb with registration number: 080517105.

Intraday Capacity Allocation Rules - Rules for the allocation of the Cross Zonal Intraday Capacity at the border of Bidding Zones of Croatian Transmission System Operator Ltd. (*HOPS*) and *MAVIR ZRt* (*MAVIR*).

Intraday Capacity Right (hereinafter referred to as “*ICR*”) - refer to the obligation of the *User* to use *Allocated Intraday Capacity*, in its full amount, for electricity transfers expressed in MW.

Nomination - the notification to the *TSOs* by a *User* of his *Programs* relating to the power expressed in MW which he will use within the capacity limit defined by the *CRs* allocated to him, or equal to the *ICRs* allocated to him.

Nomination Rules – means the rules with regard to the notification of use of *Capacity Rights* and *Intraday Capacity Rights* between the *Bidding Zones* of *HOPS* and *MAVIR*.

MAVIR (MAVIR ZRt) – company with registered office at H-1031 Budapest, Aniko u.4., Hungary and incorporated in the Business Register with the Company Identification No. 01-10-044470.

Program - Cross-border Transaction nomination made by a *User*, specifying the power in MW for each hour of a day.

Request - the request sent by a *User* to acquire *Intraday ATC*.

Transmission Capacity Allocator (TCA) - stands for *HOPS* (in its function as the *Transmission Capacity Allocator*). *HOPS* will be subject to all rights and responsibilities attributed to the *Transmission Capacity Allocator*.

TSO - means a natural or legal person responsible for operating, ensuring the maintenance of, and, if necessary, developing the transmission system in a given area and where applicable its interconnections with other systems, and for ensuring the long-term ability of the system to meet reasonable demands for the transmission of electricity.

TSOs - Transmission System Operators participating in this common allocation procedure, i.e. *HOPS* and *MAVIR*.

User - A market participant that fulfills prerequisites for participation in the intraday capacity allocation procedure of at least one of the Parties (*HOPS* or *MAVIR*) according to Article 3.1 of these *Intraday Capacity Allocation Rules*.

Working Day – the calendar days from Monday to Friday, with the exception of Croatian public holidays.

The headings in *Intraday Capacity Allocation Rules* are intended only as a matter of convenience and for reference and shall be given no effect in the construction or interpretation of *Intraday Capacity Allocation Rules*.

Section 1 Introduction

Article 1.1. General context

In accordance with Regulation (EC) No 714/2009 and Its Annex 1, article 1.9. mechanisms for the intra-day congestion management of interconnector capacity shall be established in a coordinated way and under secure operational conditions, in order to maximize opportunities for trade and to provide for cross-border balancing.

Intraday Capacity Allocation Rules set out the terms and conditions agreed between *HOPS* and *MAVIR* acting as transmission system operators in their control areas, for the allocation and usage of the *Intraday ATC* in both directions on the border between Croatia and Hungary. Allocation and usage of the *Intraday ATC* is not a commercially motivated activity but one aimed at providing transparent methods of congestion management.

Intraday Capacity Allocation Rules govern the allocation and usage of *Intraday ATC*.

The operation of the intraday procedure described in these *Intraday Capacity Allocation Rules* is in accordance with the current rules of transmission system security and does not affect the volume and usage of the capacity already allocated in yearly, monthly and daily auctions.

Article 1.2. Allocation procedure

The *Intraday ATC* is allocated in the form of *ICR* which *Capacity Holders* are obliged to use in their full amount. The *Intraday ATC* is allocated by the *Transmission Capacity Allocator* according to the *First come - First serve method* in accordance with Section 6.

In the scope of these *Intraday Capacity Allocation Rules* *HOPS* acts as the *Transmission Capacity Allocator* for *Capacity* of both *HOPS* and *MAVIR*.

Proceedings related to this *Intraday Capacity Allocation Rules* may be discontinued or interrupted by *HOPS* and/or *MAVIR* at any time without prior notice e.g. in case of technical failures.

All relevant information according to Article 2.2 is made available on the *HOPS*' Auction System website <https://www.hops.hr/wps/portal>.

Article 1.3. General aspects of Intraday Capacity Allocation Rules

Intraday Capacity Allocation Rules describe (among other aspects) the requirements that market participants must fulfill in order to be able to access and use the *Intraday ATC*. Article 10.1 contains a limitation of liability. *Intraday Capacity Allocation Rules* may be amended jointly by the *TSOs* along the way in order to improve or clarify provisions and procedures and to fill gaps according to Article 10.5.

General grid access for the use of allocated capacities is not covered by the scope of *the Intraday Capacity Allocation Rules* unless otherwise stipulated in the following provisions. *HOPS and MAVIR* carry out the transmission services in compliance with the legal requirements of grid access in each control area and applicable rules of *HOPS and MAVIR*.

Section 2 General provisions

Article 2.1. Intraday ATC

Intraday ATC values for the delivery day D (00:00 till 24:00) are published on Auction System on D-1 latest at 18:00 when allocation begins. The basis for the calculation is agreed intraday NTC values and confirmed netted Day ahead schedules. After each successful allocation Intraday ATC values are automatically reduced.

Article 2.2. Publication of relevant information on the HOPS website

In particular, the following information will be published on the *HOPS'* website:

- a) *Intraday Capacity Allocation Rules* (valid release);
- b) Names, facsimile and telephone number(s), e-mail address(es) of contact persons of *HOPS*;
- c) User's Guide for *Auction System*;
- d) Other relevant information.

Article 2.3. Basis on which Intraday ATC is offered

Intraday ATC is offered in units of 1 MW with a minimum of 1 MW. *Intraday ATCs* are offered as hourly products.

Article 2.4. Firmness of Allocated Intraday Capacities

Intraday ATC is offered on a firm basis except in case of curtailments due to *Emergency Situation or Force Majeure* after taking into account all other available measures according to relevant national and EU legislation.

In case of *Curtailed HOPS and MAVIR* will reduce *Allocated Intraday Capacity* according to Section 9. The *User* is not entitled to receive any financial compensation related to *Allocated Intraday Capacity*.

Article 2.5. Secondary market

Transfer or resale of the *Allocated Intraday Capacity* is not possible.

Article 2.6. Payments

The *Capacity Holder* does not pay any price for the reservation or use of the *Allocated Intraday Capacity*.

Section 3 Participation requirements

Article 3.1. Registration requirements

In order to participate in intraday allocation process and use the *Allocated Intraday Capacity* resulting from that process, the market participant must comply with all requirements set forth in *Intraday Capacity Allocation Rules* and fulfill the following prerequisites:

- **On HOPS side** –must have valid and effective Balance Responsibility Agreement with HOPS and/or Electricity Market Participation Agreement with Croatian Energy Market Operator (HROTE) (Croatian Market participant),
- **On MAVIR side** –must be Market Participant with the valid and effective balancing contract with MAVIR, and a valid and effective system usage contract.

The market participant must send to *HOPS*, who acts as the *Transmission Capacity Allocator* for both *TSOs*, two signed copies of the Registration Form (Annex 1) which also includes the statement of acceptance of the *Intraday Capacity Allocation Rules*.

The two signed copies of the Registration Form have to be delivered to the *Transmission Capacity Allocator* in writing by mail, messenger/courier or personally. The Registration Form has to be delivered to the *Transmission Capacity Allocator's* address or personally to the filing office of the *Transmission Capacity Allocator* (see Annex 2). The Registration Forms delivered by fax or e-mail will be null and void and rejected by a refusal note. For the avoidance of doubt, the rejected Registration Form shall be considered null and void as of their submission.

The *Transmission Capacity Allocator* may verify information provided in the delivered Registration Forms and in their attachments. The *Transmission Capacity Allocator* is entitled to refuse to register a market participant in case of any discrepancy and/or misrepresentation in the Registration Form.

The *Transmission Capacity Allocator* will confirm registration or refusal by sending a note to market participant no later than three (3) *Working Days* following the receipt of the Registration Form by the *Transmission Capacity Allocator*.

The confirmation or refusal note will be sent by e-mail to the e-mail address filled in the Registration Form. If the *Transmission Capacity Allocator* refuses to register a market participant, the reason(s) will be stated in the refusal note.

All requested documents have to be provided by the market participant at least five (5) *Working Days* before the intended start of the participation to intraday allocation procedures. If this deadline is missed, the relevant *TSO* cannot guarantee the participation of the market participant.

The registered market participant that fulfills all requirements stated in this Article is regarded as the *User*.

Article 3.2. Notification of Changes

The requirements for participation set forth in *Intraday Capacity Allocation Rules* must be fulfilled at all times when participating to intraday allocation proceedings. As a consequence, the *User* shall promptly inform both *TSOs* in writing of any changes effecting fulfillment of the requirements concerned.

Changes concerning the *Users* contact data and statements set forth in the forms submitted by the *User* shall be notified to *TSOs* in writing within eight (8) days.

Section 4

Exclusion of the User

Should the *User* in any manner:

- a) infringe *Intraday Capacity Allocation Rules* (especially but not limited to breach of Section 7);
- b) behave in a way which adversely affects or threatens competition in the intraday capacity allocation proceedings;
- c) declare bankruptcy, become insolvent or be granted suspension of payment;
- d) become the object of a petition for bankruptcy, insolvency or suspension of payment.

the *User* will be excluded from intraday allocation procedures by *HOPS*, respectively *MAVIR*, after the approval of the other *TSO* without delay. The barring shall promptly be notified to the *User* by both facsimile transmission and mail.

Section 5

Auction System

Article 5.1 General Conditions

The *Transmission Capacity Allocator* will organize and execute the common allocation of the *Intraday ATC* electronically in the user environment of the *Auction System*.

The *Transmission Capacity Allocator* will provide the *Users* with documentation of the *Auction System* (on web site <http://www.hops.hr/wps/portal/en/web/market/capacities/hr.hops.capacities.info>), and operational instructions, related to using of the *Auction System* and *Users* support.

The *Transmission Capacity Allocator* reserves the right to change operationally a business regime or suspend process in reasonable cases, especially when the following technical problems arise: a general collapse of the Internet, a collapse of all Internet connections of the *Auction System*, or a collapse of *Auction System* (servers, database or *Auction System* application error).

All *Users* of the *Auction System* will be informed, without undue delay, of the actual operational situation.

A data receipt will be valid only if the data had been accepted by the *Auction System* by the deadline.

In order to participate in the allocation procedure, *Request* shall be submitted to the *Auction System*. *Request* which do not fulfill any of the requirements stated in the *Intraday Capacity Allocation Rules* shall be rejected. *User* shall receive a status message of *Request* in *Auction System*. *Allocated Intraday Capacity* cannot be modified or cancelled.

Section 6 Intraday Allocation Procedure

Article 6.1. Determination and publication of Intraday ATC

HOPS and *MAVIR* will determine *Intraday ATC* in each direction and for each hour, which may be used for the intraday allocation.

The values of *Intraday ATC* for the day D will be available in the *Auction System* not later than 18:00h (CET) on the day D-1 when allocation begins (see Annex 3– Intraday procedural gates and deadlines).

In case of additional limitations in the transmission systems (which could not be foreseen when net transfer capacity was calculated), the values of *Intraday ATC* may be changed. *HOPS* is entitled to modify the *Intraday ATC* within the day in the *Auction System*.

The *Intraday ATC* for a certain hour is adjusted following allocation of each *Allocated Intraday Capacity* for that hour and will be published in the *Auction System* continuously.

Article 6.2. Allocation of Intraday ATC

Only *Users* which have successfully registered and fully comply with requirements defined in Section 3 can submit a *Request* for *Intraday ATC*. The submission of the *Request*, as well as taking over of the results is carried out exclusively through the *Auction System*.

The *Request* (for the day D) is submitted to *HOPS* via *Auction System* starting from 18:00h (CET) on the day D-1 but not later than 60 minutes before the start of the first hour to which the

intraday *Cross-border Transaction* relates. The minimum requested capacity is 1MW, and the maximum is equal to the value of *Intraday ATC*. Within a single *Request*, only one value of the capacity may be requested for one direction and for one or more hours of the day D.

Article 6.3. Notification of the allocation results

Request of each *User* will be processed by *Auction System* applying the *First come - First serve method*, and the *User* will be immediately informed about the result through the *Auction System*. In case the *Request* is accepted the *User* will obtain capacity right with *CAI*. *HOPS* and *MAVIR* will immediately authorize the *User* with *CAI* to use the *ICR* (by entering the *ICR* into scheduling systems) and enable the schedule declaration by the local rules.

Section 7

Use of Allocated Intraday Capacity

The *Capacity Holder* and his cross-border partner (hereinafter referred to as the *Counterpart*) are obliged to use the entire amount of *ICR*. In this case the *nominated* amount of capacity is equal to the *ICR* obtained during intraday process for each hour and direction and it is fully matched with *Counterpart* nomination. This obligation is monitored by *Transmission Capacity Allocator*.

If the *Capacity Holder* breaches this obligation in three (3) different business days during one (1) calendar year, the *TSOs* (*HOPS* and *MAVIR*) have the right to exclude the *Capacity Holder* from intraday capacity allocation process for the period of twelve (12) months. The *Transmission Capacity Allocator* based on the request for exclusion from *TSOs* will submit the notice about exclusion to the *Capacity Holder*. This obligation is breached when the *Capacity Holder* (or his *Counterpart*) does not use (or partially use) capacity at least one (1) hour during one (1) business day. The exclusion becomes effective with the date set in the notice but not earlier than next day after the *Transmission Capacity Allocator* receives the request for exclusion from *TSOs*.

The use of reserved transmission capacities is done via the delivery of fixed schedules to *HOPS* and *MAVIR* in compliance with the legal requirements of grid access in each control area, and applicable market rules of *HOPS* and *MAVIR*.

Article 7.1. Nomination of Allocated Intraday Capacities

The *Nomination* of intraday *Programs* is done by the *Capacity Holder* and his *Counterpart* through existing scheduling systems of both *TSOs* in accordance with *Nomination Rules* published on web site of *HOPS* and *MAVIR*.

The terms and conditions of the nomination and matching process are described in *Nomination Rules*.

Section 8 Cancellation of intraday procedure

In case of an *Emergency Situation*, the intraday process can be immediately cancelled by *HOPS* and/or *MAVIR* after taking into account all other available measures according to relevant national and EU legislation. It is also possible to reduce the offered *Intraday ATC* values. In such cases the *Intraday ATC* values for the respective hours are immediately set to 0 or another agreed value. The *Intraday ATC* remains changed until both *TSOs* agree to revoke the cancellation of the intraday procedure or the reduction of the *Intraday ATC*.

The intraday procedure might also be canceled due to the serious disturbance to the functioning of the Internet, *Auction System* and other IT Systems or devices used in the intraday process by *HOPS* and/or *MAVIR*.

In case of exceptional circumstances, *HOPS* shall inform all *Users* via publication of the notice on the *HOPS Auction System* website, if available.

Section 9 Curtailement of Allocated Capacities

The *Allocated Intraday Capacity* shall be firm as soon as it is allocated.

The *Allocated Intraday Capacity* may be curtailed/reduced only in case of *Force Majeure* or *Emergency Situations* in accordance with Article 72 of Commission Regulation (EU) No. 1222/2015. For the avoidance of doubt, *Intraday Capacity* when curtailed after the Day Ahead Firmness Deadlines shall be curtailed in the same way as long term capacity and daily capacity. The Day Ahead Firmness Deadline for the purpose of these *Intraday Allocation Rules* is set thirty (30) minutes before the earliest Day Ahead Market Gate Closure Times of the Croatian and Hungarian Market, namely 10:30 am (CET).

Curtailement may be applied on allocated *Intraday Capacity Rights* including, where the case may be, on nominated *ICR*.

The *Capacity Holder* affected by curtailement of *Intraday Capacity* shall lose its right to nominate of intraday *Programs* if such *ICR* exists in the moment of curtailement.

The curtailed capacity will be rounded to the next higher full MW.

In *Emergency Situations* *HOPS* and/or *MAVIR* may apply intraday capacity allocation freeze meaning that remaining *Intraday ATC* will be reduced to zero for the rest of the day. In this case the already nominated *Intraday Capacities* shall be unchanged.

In any case *HOPS* and/or *MAVIR* shall inform the affected *Capacity Holder* and in case of nominated Capacities his *Counterpart* about the curtailment immediately.

There will be no financial compensation paid to the *Capacity Holder* for the curtailed capacity gained in the intraday allocation process.

Section 10 Miscellaneous

Article 10.1. Limitation of Liability

The *TSOs*, either jointly or separately, shall not be liable to a *Capacity Holder* for any damages resulting from a *Capacity Holder* participating or not being able to participate in an intraday allocation process. The *Capacity Holder* shall hold harmless and indemnify the *TSOs*, jointly and separately, in respect of claims regarding such damages from third parties. In no event shall *HOPS* and/or *MAVIR* be liable for any loss of profit, loss of business, or any other indirect incidental, special or consequential damages of any kind.

HOPS and/or *MAVIR* undertake to carry out the provisions set out in the *Intraday Capacity Allocation Rules* with the diligence of a careful businessman and control area manager in compliance with the applicable regulations set out by EU law, respectively by the *EU-Regulation*, Croatian law and law of Hungary and regulations set out by the Croatian Authorities and Authorities of Hungary.

Article 10.2 Force Majeure

HOPS and/or *MAVIR* shall not be held liable for non-performance, defective performance or delayed performance of obligations arising from these *Intraday Capacity Allocation Rules* if and to the extent that said non-performance, defective performance or delayed performance is due to circumstances over which the obliged party has no influence, including but not limited to *Force Majeure* or other circumstances the relevant party is not responsible for and which cannot be solved by measures which, from a technical, financial and/or economic point of view, can reasonably be taken by *HOPS* and/or *MAVIR*.

Article 10.3. Severability

Notwithstanding special provisions set out in these *Intraday Capacity Allocation Rules* no modification of the contract between *HOPS* and/or *MAVIR* on the one hand and the *User* on the other hand shall take effect unless it is in writing, by fax or e-mail confirmed, executed and delivered by *HOPS* and/or *MAVIR*. If any part or provision of the *Intraday Capacity Allocation Rules* and/or its annexes are or become invalid, illegal, void and/or unenforceable, the remaining part(s) shall continue to be valid and enforceable and shall not be affected thereby. Any invalid, illegal, void and/or unenforceable part(s) or provision(s) shall be replaced by valid, legal and/or

enforceable part(s) or provision(s) in order to achieve the intended economic and legal effect as far as possible.

Article 10.4. Confidentiality

By operation and performance under *Intraday Capacity Allocation Rules HOPS* and/or *MAVIR* and its affiliates, if any, may receive or have access to *Users* confidential information. Confidential information shall include all information delivered in writing and designated as “Confidential”, or disclosed other than in writing, information as to which the person to whom such information is disclosed, prior to or essentially concurrent with such disclosure, is made aware that confidential information may be or is being disclosed. *HOPS* and *MAVIR* agree to hold the confidential information in confidence and not to disclose without the prior consent of the *User*, or make such confidential information available, in any form, to any third person or to use such confidential information for any purpose other than the contemplation of the provisions of these *Intraday Capacity Allocation Rules* except to public authorities.

The provisions of this Article shall not apply to any information disclosed to *HOPS* and *MAVIR* as contemplated by this Article if:

- before such disclosure it was public knowledge or, after such disclosure, becomes public knowledge through no fault of *HOPS* and *MAVIR*,
- it was known to *HOPS* and *MAVIR* before that disclosure,
- after that disclosure the same information is received by *HOPS* and *MAVIR* from a third party owing no obligation of secrecy to the respective *User* in respect to such information.

Article 10.5. Amendments and changes

Any amendments and changes to these *Intraday Capacity Allocation Rules* shall be notified to the *Users* by means of publication of the respective new version of these *Intraday Capacity Allocation Rules* on the websites of *HOPS* and *MAVIR*. Such notification shall include reference to the articles amended or changed and the date on which the new version of these *Intraday Capacity Allocation Rules* enters into force. Unless stated in the respective new version of *Intraday Capacity Allocation Rules*, no new registration is required and *Users* accept the new *Intraday Capacity Allocation Rules* by further taking part in the intraday allocation process.

Article 10.6. Applicable law and disputes

These *Intraday Capacity Allocation Rules* shall be governed by and construed in accordance with the laws of Croatia without recourse to Croatian private international law as well as by EU law, particularly EU- Regulation. For the avoidance of doubt, the application of the UN Convention on the International Sale of Goods shall be excluded.

In the event of any dispute or differences arising from the *Intraday Capacity Allocation Rules* and its Annexes or related to its violation, termination or becoming null or void, the claimant is obliged to describe and present its claim in detail including the identification of the respective article/paragraph of the *Intraday Capacity Allocation Rules*.

The place of jurisdiction for all disputes, arising from the *Intraday Capacity Allocation Rules*, shall be the competent Court at the registered seat of the *Transmission Capacity Allocator*.

The place of performance of all obligations of the market participants resulting from the intraday allocation held in accordance with these *Intraday Capacity Allocation Rules* and its Annexes shall be the registered seat of the Transmission Capacity Allocator.

Article 10.7. Notices

Except where these *Intraday Capacity Allocation Rules* provide otherwise, any notice given under these *Intraday Capacity Allocation Rules* must be in writing and addressed to the addresses given in Annex 2.

Article 10.8. List of Annexes

Annex 1	Registration Form
Annex 2	List of Contacts
Annex 3	Intraday procedural gates and deadlines

Annex 1 - Registration Form

Registration form for the participation in intraday capacity allocation process on border between Croatia and Hungary

Name of the company /Entrepreneur	
EIC-Code	
Official address, Country	
Commercial/Company registration No.	
Legal representative(s)	
VAT No.	

We hereby declare our intention to participate in the intraday capacity allocation process at the border between Croatia and Hungary. We fulfill all participation requirements of the “Rules for the allocation of the Cross Zonal Intraday Capacity at the border of Bidding Zones of Croatian Transmission System Operator Ltd.. (“HOPS”) and MAVIR ZRt (“MAVIR”)” (hereinafter *Intraday Capacity Allocation Rules*). Moreover, we have read and fully accept to abide and to be bound by all rules and regulations and IT requirements of the English version of the *Intraday Capacity Allocation Rules*, which have been published on the *TSOs* websites.

We acknowledge that our admission to participate in the intraday allocation process may be withdrawn in case regulations of the *Intraday Capacity Allocation Rules* are breached.

For the market participant

Croatian Transmission System Operator Ltd. as the *Transmission Capacity Allocator* approves the above-mentioned registration form, and registers this form under registration number:

For HOPS

Date: _____

Signature

Annex 1 - Attachment 1

A list of authorized representatives of the User

The *User* appoints the following persons to be authorized to act on behalf of the *User*:

- for signing of the Registration Form

Name	Telephone No.	Mobile phone No.	Fax No.	E-mail

- for submitting *Requests for Intraday ATC* to the *Transmission Capacity Allocator*

Name	Telephone No.	Mobile phone No.	Fax No.	E-mail

Valid postal address for sending the Registration Form:	
--	--

The *User* is obliged to inform the *Transmission Capacity Allocator* promptly in case of any changes identified in the table above.

Annex 2 - List of Contacts

Registration Forms (see Annex 1) must be delivered by market participants to the *Transmission Capacity Allocator* at the following address:

Croatian Transmission System Operator Ltd. (HOPS)
Economic, Legal, Personnel and General Affairs Department
Kupska 4
10000 Zagreb
Croatia

For personal deliveries on the above mentioned address, the filing office is open between 07:00h and 15:00h (CET) on *Working Days*

Any confirmation issued by the filing office of the *Transmission Capacity Allocator* confirms only the date and time of receiving of the document - not the document's accuracy or whether or not it is correct.

Users may use for other communication with *Transmission Capacity Allocator* following fax numbers and contacts:
